

AL THARWA AL MUTTAHIDA GEN. TRAD. & CONT. CO. W.L.L.

Company Profile - 2026 Edition

Mobilization, Local Presence & Support Services

Kuwait City, State of Kuwait

WHO WE ARE ABOUT US

Headquartered in Kuwait City, Al Tharwa Al Muttahida General Trading & Contracting Co. W.L.L. is a Kuwaiti-owned company dedicated to the advanced development of the construction & engineering and oil & gas sectors, together with a wide variety of services in commercial and military logistical support. We bring an innovative approach to support services: one partner, one call, and the entire ground operation is handled.

For more than a decade, international companies have relied on Tharwa as their local partner in Kuwait - from a single visiting delegation to the mobilization of hundreds of people into a new country. Approvals, visas, housing, transport, catering, equipment, security and administration are delivered under one roof, at local cost and local speed.

Our Vision & Mission

We strive to exceed the expectations of every client by offering exceptional customer service, providing quality services with focus on the safety of our employees and customers, and flexibility in a contingency or sustainment environment. We strive for excellence in our work and adhere faithfully to the highest ethical and technical standards of our profession and business, giving top priority to customer satisfaction.

How We Work

Every engagement is run personally by the company's management. A client gets one accountable point of contact, a Kuwaiti back-office team on the ground, and a simple promise: one call, everything handled - so headquarters never waits.

WHAT WE DO

OUR SERVICES

Tharwa helps customers meet their technology and operations objectives by providing technical and non-technical resources for their short- and long-term requirements. Our services cover the full life of a foreign operation in Kuwait - from the first approval application to daily life support for hundreds of staff.

Market Entry & Approvals

KDIPA applications, K-company approvals and registrations, work permits and local company set-up.

Visas, Mobility & Host Services

Business and commercial visas, residencies, gate passes, airport services, sponsorship and badging.

Accommodation & Life Support

Apartments, villas, temporary housing, catering, potable water, waste removal, fuel and janitorial services.

Vehicle & Equipment Leasing

Passenger vehicles, buses, cranes, telehandlers, forklifts, lighting towers, reefers and generators.

Maintenance & Repair

In-house team for vehicles, heavy equipment and material-handling assets; fabrication and modification.

Security Services

VIP protection, staff and field-worker security, perimeter fencing, camp set-up and surveillance.

Procurement & Supplies

Materials, consumables, building supplies, uniforms and ready-to-work supplies at local prices.

Office & Administration

Serviced offices with internet, secretaries, administrators and meeting rooms.

Pilot Projects

Research and technology pilots run on Tharwa's license infrastructure, bypassing lengthy set-up steps.

Lifestyle Management

Private club access and guidance on local and expat communities.

Engineering & Design

Engineering services, design architecture and construction chemicals & technology.

Trading Divisions

Oil & gas industrial materials and equipment; construction materials; chemical manufacturing.

OUR SERVICES

MARKET ENTRY & APPROVALS

Licenses, registrations and government approvals are where foreign projects lose their first months. Tharwa runs the full process - from the first application paper to the final stamp - until the approval is in hand and the client is operating legally in Kuwait.

KDIPA Application Handling

Complete handling and processing of KDIPA applications: preparing the required paperwork, arranging high-level meetings and - most importantly - managing clarification requests and follow-up with the authority. We have provided several international companies with approvals and various licenses.

K-Company Approvals & Registrations

Approvals and registrations with Kuwait's national oil and gas companies for many international principals, across many different categories of work and supply.

Work Permits & Local Company Set-Up

Local Temporary Business Licenses with the necessary approved activities, Consultancy Licenses, and import/export registrations including EPA chemical import.

Research & Technology Pilot Projects

International companies run pilot projects on Tharwa's license infrastructure, bypassing many approval steps and company set-up requirements. We have conducted many successful pilots, one of which led to a larger award in the KERP environmental project.

Office Services

Ready offices with internet, secretary, administrators and meeting rooms - so an arriving team can work from day one, without leasing, furnishing or staffing a premises of its own.

Why It Matters

An approval handled incorrectly costs a project its first season. Tharwa's value is not only knowing which paper goes where - it is knowing who to sit with, which clarifications are coming, and how to answer them before they are asked. That is the difference between a file that moves and a file that waits.

OUR SERVICES

VISAS, MOBILITY & HOST SERVICES

Every mobilized person needs the right stamp in the passport, a badge at the gate and a working day that runs on time. Tharwa sources, processes and manages all of it - for ten people or five hundred.

Visas & Site Access

Business visas applied for and transferred to Visa Multiple on passport, allowing gate passes and entry into all K-company sites and field offices. Field gate passes for approved vehicles, and full PPE and safety provisions for site personnel.

Sponsorship & Residency

Sponsorship services, commercial visas, residency processing, driver's licenses and installation access (badging) for long-term staff and their principals.

Airport & Arrival Services

Meet-and-greet at the airport, health screening and government hospital checks arranged for all visitors and local staff holding work permits.

Host Housing

Western-style housing, furnished or unfurnished, with transportation; Eastern (TCN) housing with catering and transportation - matched to the workforce and the budget.

PPE & Safety Provisions

Full personal protective equipment and safety provisions supplied for site personnel, so every worker passes the gate compliant from the first day.

OUR SERVICES

ACCOMMODATION & LIFE SUPPORT

We offer a wide variety of life support services and equipment, run to the standard a mobilized workforce expects - whether the client is housing executives in the city or housing a full crew beside a remote site.

Accommodation

Apartments and villas sourced, leased and managed; furnished and serviced, short or long term.

Water & Waste

Potable water supply, waste water removal, and waste removal and recycling.

Temporary Housing

Tents, CHUs, PEBs, RLBs and fully serviced American Portable Units (APUs) for remote or site-based crews.

Hygiene & Welfare

Fully serviced shower trailers and latrine trailers, janitorial and custodial services.

Catering

Food catering services for camps, offices and sites, scaled to the workforce.

Utilities

Fuel supply, internet and mobile phone arrangements for arriving teams.

OUR SERVICES

VEHICLE & EQUIPMENT LEASING

We offer a comprehensive fleet of assets maintained according to manufacturers' recommendations and adhering to local and US Health & Safety standards, backed by 24/7 support service. Our reputation for reliability makes Tharwa the choice for vehicle and equipment leases, short or long term.

Passenger & Light Vehicles

Passenger vehicles, SUVs and buses with drivers, for staff movement and airport handling.

Lifting & Handling

Forklifts, telehandlers and cranes, operated and maintained to standard.

Construction Equipment

Earth-moving and construction equipment for project sites of any scale.

Site Utilities

Lighting towers, reefers and generators for camps and compounds.

OUR SERVICES

MAINTENANCE, REPAIR & SECURITY

Behind the front line, Tharwa keeps the operation running and the people safe - with in-house technical teams and professional security coverage.

Maintenance & Repair

Our team conducts maintenance and repair on a wide range of equipment: passenger vehicles, buses, heavy vehicles, earth-moving equipment, material-handling equipment, generators and lighting towers.

Fabrication & Modification

Our experienced fabricators perform modification work on a wide variety of auxiliary equipment, including oil service carts, trailers and storage tanks.

Security Detail & Protection

Security detail and protection for VIPs as well as local staff and field workers, tailored to the client's risk profile and movement schedule.

Camp & Perimeter Security

Fence perimeter works, full camp set-up, and surveillance services with cameras and motion detection for sites and compounds.

One Standard

Assets are maintained according to manufacturers' recommendations and adhere to local and US Health & Safety standards, with 24/7 support - the same discipline whether the contract runs one month or five years.

OUR SERVICES

PROCUREMENT & SUPPLIES

We provide a wide range of supplies and integrated services with flexibility and timeliness at competitive local pricing - sourced, delivered and restocked without the client's team ever chasing a purchase order.

Office & Camp Supplies

Office furniture, bottled water, appliances and day-to-day consumables.

Building Materials

Wood and lumber, paint, plumbing supplies, electrical supplies and carpentry supplies.

Site Consumables

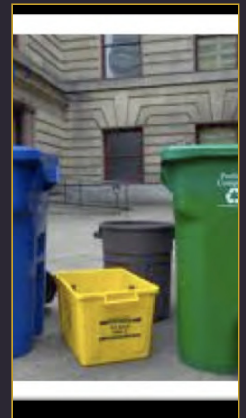

Trash and recycling bins, sandbags and recurring items as per requirement.

Uniforms & RTW

Uniforms and ready-to-work supplies for arriving crews.

Local Sourcing Advantage

Materials, consumables and building supplies are sourced locally at local prices. The client's budget buys the project, not the shipping.

OUR SECTORS

TRADING & CONTRACTING DIVISIONS

Beyond support services, Tharwa trades and contracts in its own right - supplying the oil & gas, construction and chemical sectors from stock, license and workshop.

Equipment Trading Division

Supplier of oil & gas industrial materials and equipment to oil companies and petrochemical industries across all regions of Kuwait. Our range covers drilling equipment, steel chains and blocks, pipes, air-cooled heat exchangers, non-ferrous tubular products, stainless steel and nickel alloy tubes, pipeline equipment, valves, pipe fittings, ropes, power cables and power generation equipment, refinery operating and drilling chemicals - including pneumatic conveying equipment for pressure/vacuum transfer of solids, operable automatically or manually.

EPC Contracting Division

Construction services and all construction materials and equipment, including horizontal directional drilling rigs and pipe-laying capability, delivered by a multi-skilled and highly adaptable workforce able to handle complex projects.

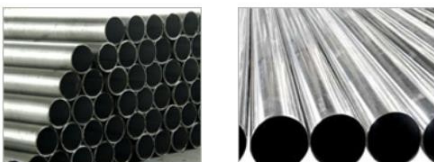

Chemical Trading Division

Tharwa holds an Industrial License from the Public Authority for Industry to manufacture ABE construction chemical products, operating a dedicated chemical division on 4,000 sqm of land. The product range covers admixtures, adhesives, coatings, concrete repair and protection, grouts, sealants and waterproofing, with distribution of Dow Corning professional silicone and glazing sealants.

Pumps

Stainless Steel Pipes

AROUND THE WORK

LIFESTYLE & FLEXIBILITY

A mobilized team that lives well works well. Tharwa handles the life around the work, so principals' staff stay safe, comfortable and focused on the project.

Lifestyle Management

Private club access and registration, and guidance on local and French expat communities such as FBCK and UFE.

Local Administration

A Kuwaiti back-office team on the ground handles the day-to-day: one call, everything handled, so headquarters never waits.

Fully Flexible

In addition to everything above, we are fully flexible in meeting the needs and requirements of our principals' staff - ensuring full safety and comfort for a healthy work environment.
